

1) A Present

Why did you choose this particular family member?

What trash can I use to create the gift?

What treasure did I create from trash?

How is this gift useful to the family member?

2) Choose an Activity to do

Why did you choose this design/activity?

Carefully study the design activity and write down the materials required for it

What are the materials you have available and what are the substitutes that you used?

Were there any problems you faced in exiting the design?

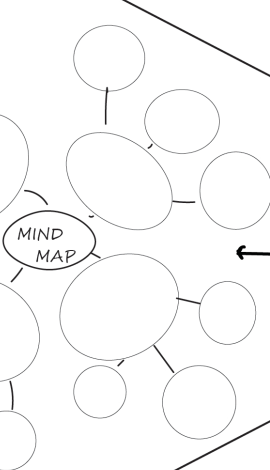

3) Me and My Surrounding

What was the highlight of the conversation you had with you peer?

What was the problem you both agreed on?

How did the problem solving tools help?

What is the most feasible solution right now?

Strengths

Weaknesses

SWOT

Opportunities

Threats

4) 'Real'izing

What practices in your household do you think already implements sustainable living/ eco-friendly ideas

How can you extend this practice to the community or make it better?

5) Advertise!

What is your favorite advertisment?

What about the ad attracts you the most?

Develop a tagline/jingle for your product

What mode of advertising(verbal , jingle, song, tagline, non-spoken , comdey, movie-inspired, etc.) did you choose as your final video advertisment of the product and why?
